Dear Students,

Welcome to **EPY 150: Strategies for Academic Success**. I have been teaching this course almost five years, but I still get excited about a new semester, meeting new students and learning new things. This course syllabus provides information about class requirements, learning objectives, topics covered and the grading system. Keep this syllabus with you at every class. (NOTE: In fact, use this strategy for every class you take.)

This class is an “enhanced class” which means that many of the learning materials (handouts, homework information, etc) are placed online so you can access them later. It is not a requirement that you have a computer for this class; it is not even a requirement that you use WebCampus this semester. However, learning how to use this will give you an advantage in the future. You will learn how to use the online learning platform before you consider taking an online class. We will still meet face-to-face in our class two times a week, but you will be able to submit your homework, chat with other classmates, send e-mail to classmates, and download lecture notes.

Overall, this class focuses on success strategies. Success in most situations is the result of specific behavior. This course is based on the assumption that students who desire to change and become more successful can learn new behaviors. We will focus on three behavioral areas, this semester, in our quest to become more successful – attitudes & perceptions about ourselves, attitudes & perceptions about our social environment, and study strategies. You have made the first step by showing up to class. **The big question is – Do you want to change? If your answer is yes... remember success can be learned. Let the journey begin!**

Susan Priest

I) COURSE DESCRIPTION:

Helps students to develop effective and efficient study skills. Students will learn how to learn.

II) COURSE OBJECTIVES – THE SUCCESSFUL STUDENT WILL:

- A) Use self-assessment tools to identify the ways that they think and learn and to apply this information to their academic present and future;
- B) learn new study skills (e.g., time management, note-taking, memory, reading, test taking, thinking, etc.) and apply these techniques to courses they are taking this semester;
- C) use self-assessment tools to identify their strengths and weaknesses in study skills, their preferred learning styles, and issues related to test-taking;
- D) develop *critical thinking* skills, in oral and written communication;
- E) learn techniques to manage stress;
- F) gain an appreciation for diversity in the classroom and the workplace; and
- G) identify personal, academic and career goals for the future.

V) COURSE REQUIREMENTS / CALENDAR – STUDENT RESPONSIBILITY:

Attend Class, Participate & Be Prepared (50 Points)	In-Class Activities & Weekly Homework Assignments (300 Points)	Quizzes Best 5 out of 8 (100 Points)	Mid-Term & Final Exam (150 Points)
--	---	---	---

A) Preparation, Attendance & Participation

50 Points

- “90% of success is showing up.” -- Woody Allen
- Complete reading assignments **and** other homework assignments **before** class.
- You will receive **two points** for every class you attend and in which you participate (except for the Final Exam Day.) If you are not in class you don’t earn points, even if you have a “good” reason for missing class.
- If you are late to class, leave early or do not participate you will receive a fraction of those points.
- For this course, over 3 absences may be considered excessive and will lower your grade.
- **Poor Attendance = Poor Grade.**

B) Homework & Class Activities

300 Points

Completing regular homework is another key to success! I designed this course so that a major chunk of points comes from completing regular homework assignments. Homework assignments will be handed out in-class and posted on WebCampus. They are due by Friday, the week they are due. You will need to use the textbook, Becoming a Master Student, 13th edition by Dave Ellis, for every homework assignment. Some homework assignments will also include samples of study strategies that you have used in this class or other classes.

I changed and streamlined the process from previous semesters. If you can access a computer, you can type directly into the document and save it as your own. You have 2 options for submitting homework:

1. Hand-in homework in-person (directly to Instructor or to IAV facilitator) OR
2. Submit it online in WebCampus in the assignment dropbox.

I will not accept homework assignments e-mailed to me at spriest@wnc.edu. Look on the calendar (p.5-6) to double-check the homework due dates.

- Homework 1 (worth 25 points) – DUE Week 3
- Homework 2 (worth 25 points) – DUE Week 4
- Homework 3 (worth 25 points) – DUE Week 5
- Homework 4 (worth 25 points) – DUE Week 6
- Homework 5 (worth 25 points) – DUE Week 7
- Homework 6 (worth 25 points) – DUE Week 8
- Homework 7 (worth 25 points) – DUE Week 10
- Homework 8 (worth 25 points) – DUE Week 11
- Homework 9 (worth 25 points) – DUE Week 13
- Homework 10* (worth 50 points) – DUE Week 15 (*NO FREE PASSES)

HOW YOUR HOMEWORK WILL BE GRADED:

- You will earn full points if all the following conditions have been met:
 - ☉ Your homework is turned in on time (Friday the week they are due.)
 - ☉ Your homework is typed.
 - ☉ Your homework includes your name, class section, homework # and due date in the upper left-hand corner of page 1.
 - ☉ Your homework is complete (All questions are answered completely and written in complete sentences.)

- You will lose points if:
 - ✗ Your homework is turned in late. Any time listed after the deadline in WebCampus is considered LATE. (NOTE: Late homework may not be turned back to students in a timely manner.)
 - ✗ Your homework is not typed. I will accept homework that is handwritten, but you will lose 2 points.
 - ✗ Your homework is incomplete (e.g., You didn't answer all the questions and/or you didn't answer the questions in complete sentences.)
 - ✗ You give the same answers repeatedly.
 - ✗ You choose not to turn in an assignment (or several assignments.)

IF you are not able to access a computer or you run into issues, you may submit the homework in class by the due date. BUT, your homework should be TYPED. (NOTE: If you have "technology" issues, I recommend that one of your major goals this semester be to become familiar with the advantages of using a computer for your homework AND become familiar with online learning environments.)

- **Late Homework will lose 5 points. ☹ It will not be accepted over 2 weeks late.**
- ☺ **However, you have 2 FREE PASSES – Throughout the semester.**
TRANSLATION: You may e-mail instructor (spriest@wnc.edu), or hand instructor a note before class begins and say you are using one of your free passes for this week's homework. You do not need to give a reason, just remember you have only 2 FREE PASSES – use them wisely. The FREE Pass entitles you to turn in your homework late with no point deduction. You still have to complete the assignment, if you want those points. The Free Pass is **not** to be used for quizzes, exams or HOMEWORK #10.
- You will also earn points by completing some "self-assessments". Some of these will take place in-class and some of these will be take-home assignments. If you are absent while we have completed the "activity" you will need to make up the assignment. **(See list of activities on the calendar on pages 5-6 of this syllabus.)**
 - LASSI (15 points)
 - NEO-FFI Inventory (also called "The Big Five") (15 points)
 - LS-I & Discovery Wheel (10 points)

C) Quizzes 100 Points

Eight short quizzes will be given throughout the term covering material from the required reading, lectures and discussions.

- **20 points max for each quiz.**
- The first quiz will be an open-book quiz.
- **The lowest three quiz grades (out of 8) will be dropped.** (No make-up quizzes will be given. If you miss a quiz day, you will receive a zero.)

D) Exams 150 Points

Mid-Term Exam (75 points) – **April 1, 2010**. The form of this test will be announced ahead of time. It will cover material covered in the reading and during class lectures up to April 1, 2010. There are no make-up exams.

Final Exam (75 points) -- **May 18, 2010**. This exam is a course requirement. (*Translation = You must take the Final Exam to pass the class.*) The form of the test will be announced at least 2 weeks prior to the exam. Write this date in your calendar. There are no make-up final exams.
