

MAILED SURVEY COSTS

Mailed surveys may be either full, unfolded sheets (which require large 9-1/2" envelopes) or they may be folded and placed in a #10 envelope. Unfolded surveys are less time consuming and are more accurate when scanned and will be used when postage is the same as #10 envelopes. When mailing a survey, a self-addressed, stamped envelope must be included. When possible, IR will provide labels and envelopes.
