Western Nevada College
SPECIALTY CROP INSTITUTE
in association with the Nevada Organic Advisory Council

**ORGANIC FARMING**
Making the Transition

Seminar featuring soil expert **Elaine Ingham**

**Friday, March 13 • 8 am-4 pm**
**Saturday, March 14 • 8 am-4 pm**

- $60 • $50 if registered by March 10 • $40 Saturday only
  - Both sessions include lunch
- Fallon Campus • 160 Campus Way – Virgil Getto Hall

Join experienced farmers and other organic industry professionals in this introduction to the process of transitioning your farm into certified organic production, starting from the soil up!

**FRIDAY WORKSHOP**
Includes sessions on organic production requirements, weed and insect control, finding resources, market trends, and a site visit to local organic farms.

**SATURDAY WORKSHOP**
Dr. Elaine Ingham of Soil Foodweb, Inc. will explain what life in the soil is all about. Behind her “user-friendly” approach lies a wealth of knowledge gained from years of intensive research into the organisms which make up the soil food.

Elaine is also passionate about sharing her knowledge and research findings with those at the grass roots level of working with soils. That includes not just farmers who grow crops, but also those who graze cattle, sheep and other livestock, fruit and vegetable growers, greens keepers, parks and gardens workers, nursery operators - in fact anyone who grows things, even if it’s plain old lawn grass.

**INFORMATION/REGISTRATION**
