

## **NEW SUPPLIER REGISTRATION SYSTEM**

Announcing the Nevada System of Higher Education (NSHE) **Supplier Registration System (SReg)**. This system allows suppliers to register and manage their business information online through their secure account.

SReg operates in a similar manner to other on-line registration websites. In order to register a new account a supplier submits their company and contact information including name, email addresses, phone numbers, insurance, licenses, and commodity offerings. In addition, once they are registered, suppliers can maintain and update their information.

For a supplier to register or access their account, visit <http://suppliers.nevada.edu>. For registration assistance and general questions, please the BCN Purchasing Office (775-784-6552).

As part of NSHE's move to the new Workday financial system, all new and current suppliers will need to register through the SReg system. This one registration will provide suppliers with NSHE-wide exposure to all eight system institutions.
